** wood surface

FACTORYLUX[®]

USER INSTRUCTIONS

TOOLS REQUIRED

- Drill + 6mm masonry bit
- 6mm flat head screwdriver

INSTALLATION NOTES

- Cable holder is designed to be fixed to a solid horizontal or vertical surface using appropriate fixings

INSTALLATION (MASONRY SURFACE)

1. Calculate position of cable fixing point
2. Drill 1 x 6mm hole x 30mm deep
3. Insert plastic plug into hole
4. Position cable holder fixing hole over plastic plug
5. Use screwdriver and supplied long screw to secure cable holder to fixing point (alternatively, use supplied medium screw, without plastic plug, to fix to timber)
6. Separate cores of cable and position over cable holder (as per image)

YOUR PRODUCT

Thank you for purchasing this Factorylux product. It has been designed and made to give you many years of reliable service. Please read these user instructions carefully. All user instructions available to download at factorylux.com

WARNING

- Shut off power to light fitting before installing or adjusting
- Always use fixings appropriate for your mounting surface (screws supplied may not be suitable)
- Ensure cable runs through channel provided

STAY UP TO DATE

We post regular design and product information via social media and our blog. You can also contact us via instant support, twitter or email hello@factorylux.com

ADJUSTING

- WARNING:** Shut off power and allow to cool
- Remove cable holder from fixing surface
 - Adjust as required
 - Re-install following installation instructions

HANDLING & CLEANING

- WARNING:** Shut off power and allow to cool
- Wipe gently with a dry, soft, cotton cloth
 - Cleaning products, scratching, abrasion, damp, oils, liquids etc may have a detrimental effect on the finish

TROUBLESHOOTING

No user serviceable parts. In the event of failure, fault or damage shut off power and contact our technical department via factorylux.com
